MENAFERT

Advanced K-300 AQUA

Description

| | |
|---------------|-------------------------------------------------------------------------|
| Brand Name | MENAFERT K-300 AQUA |
| Chemical name | Liquid K fertilizer complexed by polycarboxylic acids (Seaweed Extract) |
| Appearance | Liquid, lightly brown |

Chemical Composition

| | |
|------------------------------------|-----------------------|
| | Guaranteed |
| Potassium Oxide (K ₂ O) | 21.4% w/w 30.0% w/v |

Physical Properties

| | |
|----------------------------|-------------------------------------------------------|
| Density | 1.400 g / l |
| pH | 7.0 (pure product) 7.0 - 7.5 (at 1% water solution) |
| Crystalization temperature | 0 °C |
